

To the Managing Director,  
**Elijah Foundation**

## Proposal for Collaboration

Good day sir,

We really do appreciate your good works and effort to help improve the standard of living in the community(Ajegunle).

God bless you sir!

Sir, we write this letter to extend your kind gesture of collaboration with us at CodeLab.

CodeLab is a software development institute that is focus on training young people in Ajegunle to become a world class software developers, we are running with the goal of developing 1,000 developers within 5years. and so far we've been able to train 21 in just one year. following this pace, it will be impossible to achieve the said vision. that is why we seek to collaborate with you in other to expand our presence to reach out and train more developers from the community.

Sir, we propose to use a fraction of your office space as a center for our training program.

Responding to this request favorably, would increase the chances of us meeting our set goal.

Thereby, giving more young people in Ajegunle a better future as a software developer!

Ultimately, we are established to change the narrative of Ajegunle into a positive one, making it a Tech City.

However, we are proposed collaboration with you, achieving this GOAL will be fast and seamless.

We look forward to your kind, response!

Thank you sir.

from Samuel kelechi
